

MERRITT COLLEGE HISTOTECH PROGRAM

DO YOU WANT TO BE A HISTOTECHNICIAN?

A histotechnician works in a hospital or biomedical research lab. You're a key part of the team that diagnoses many illnesses. You prepare beautiful slides for the microscope by cutting and staining tissues. You use your hands and your brain! It's a secure job, and starts at \$60,000 per year. You can obtain all your training at Merritt College. Start now and you'll be working in your new career by Fall of 2015!

Courses start in August of 2013!

All courses are held on nights and weekends.

START HERE

*Explore your options this Summer!
Take either or both of these courses.*

- ↵ Biological Sciences 20 (1 unit), "Emerging Technologies in Microscopy" a career exploration course.
- Biology 10 (4 unit lab course) "Introduction to Biology" with a Bioscience emphasis.

READY TO DO IT?

Sign up NOW for all of these Fall 2013 courses!

➡ Biological Sciences 2, 5, 6, 7, 8, 10, 11 (12.5 units total) ⬅

At the completion of the semester, you will have obtained a Certificate in Optical Microscopy.

- These courses are only offered in Fall 2013.
- There are no prerequisites for these courses.
- You will then continue on with your training and internships until Summer of 2015.

NEED MORE INFO?

- ✓ Come to our Summer Open Houses!
 - Stop by anytime between 5 and 9 P.M., in D243.
 - Dates: Monday June 17th; Thursday June 27th; Monday July 15th; Thursday July 25th.
 - Or contact Dr. Giorgi, ggiorgi@peralta.edu, or Dr. Fabian, hfabian@peralta.edu.
